Portable Compressors

Mobilair™ M122**Tough, Dependable Unit**

The Mobilair™ M122 is a versatile unit suited for a number of applications including sand-blasting, pavement breaking, and general air tool use. Units are also well suited for rental houses, repair trucks, and railroads.

The M122 offers a wide array of features that make it very user-friendly. Units come standard with an easy to read control panel that is well protected. The fuel tank has a large filler neck with overflow protection for safe, easy filling. A height adjustable hitch and rigid tow bar also make transporting the M122

easy. A torsion bar suspension system and oversized tires provide superior road handling, further adding to the unit's exceptional functionality.

Unsurpassed Durability and Quietness

The M122's heavy duty steel chassis and fully galvanized canopy ensure smooth operation even when subjected to the harshest conditions. Both the canopy and solid steel flooring protect the motor, airend, and critical components from dirt, water, and other contaminants. This rugged construction

Standard Features:

- Rotary screw airend; Sigma profile produces more air with less fuel consumption
- Heavy duty steel chassis
- Fully galvanized canopy
- 4 micron, 2-stage compressor inlet filter with maintenance indicator
- 10 micron engine air filter with maintenance indicator
- High capacity cold start battery ensures reliable operation even under extreme working conditions
- Heavy duty diesel engine complies with Tier 3 emissions standards
- Tool boxes for convenient storage
- Lifting eye for simple handling
- Highly efficient cooling system
- Modulation control

Optional Features:

- Pressures to 190 psig
- Aftercooler and filtration packages
- Five year airend warranty
- Hose reels and gauge packages
- Complete line of air tools

combined with extensive engineering allow the M122 to operate in ambient temperatures up to 120°F. The canopy is also super soundproofed and provides extremely low decibel levels. Maximum sound level measured at 23 feet is only 76 db(A).

Features and Benefits

Control Panel

Easy to read control panel is well protected

Air Filter

10 micron engine air filter and 4 micron, 2-stage compressor inlet filter both with maintenance indicator

Oil Filter

10 micron spin-on oil filter with integrated thermostatic valve

Fuel Tank

Large capacity fuel tank provides many hours of operation

Airend

Efficient Sigma Profile rotary screw airend produces more air with less fuel consumption.

Specifications

Compressor		Diesel Engine		Package		Dimensions	
Free air delivery	400 cfm	Make	Deutz TCD2012 L4	Fuel tank capacity	45 gal.	Length	112"
Working pressure	100 psig	Power at full load	104.5 hp	Weight, dry	4135 lb.	Width	74"
		Full load speed	2300 rpm	Outlet	(3) 3/4" - (1) 1-1/2"	Height	63"
		Off load running speed	1600 rpm	Sound level max.	76db(A) at 23 ft.
